Contents of Vol. 57

No. 1

C. Harnois, I. Bodis-Wollner, M. Onofrj: The effect of contrast and spatial frequency on the visual evoked potential of the hooded rat 1
H.C. Nothdurft, C.Y. Li: Representation of spatial details in textured patterns by cells of the cat striate cortex 9
T.B. Boone, L.D. Aldes: Synaptology of the hypoglossal nucleus in the rat 22
P.G. Aitken, R.R. Capranica: Auditory input to a vocal nucleus in the frog *Rana pipiens:* hormonal and seasonal effects 33
P.H. Boeijinga, Th. Van Groen: Inputs from the olfactory bulb and olfactory cortex to the entorhinal cortex in the cat. II. Physiological studies 40
H. Gioanni, J. Rey, J. Villalobos, A. Dalbera: Single unit activity in the nucleus of the basal optic root (nBOR) during optokinetic, vestibular and visuo-vestibular stimulations in the alert pigeon (*Columbia livia*) 49
G.Clément, V.S. Gurfinkel, F. Lestienne, M.I. Lipshits, K.E. Popov: Adaptation of postural control to weightlessness 61
C. Milleret, P. Buser: Receptive field sizes and responsiveness to light in area 18 of the adult cat after chiasmotomy. Postoperative evolution; role of visual experience 73
F. Lacquaniti, C. Maioli, E. Fava: Cat posture on a tilted platform 82
C.R. Lines, M.D. Rugg, A.D. Milner: The effect of stimulus intensity on visual evoked potential estimates of interhemispheric transmission time 89
A. Mackay-Sim, U. Patel: Regional differences in cell density and cell genesis in the olfactory epithelium of the salamander, *Ambystoma tigrinum* 99
A.J. Sefton, K. Lam: Quantitative and morphological studies on developing optic axons in normal and enucleated albino rats 107
K.-P. Hoffmann, R. Bauer, H.P. Huber, M. Mayr: Single cell activity in area 18 of the cat's visual cortex during optokinetic nystagmus 118
J.F. Bernard, C. Buisseret-Delmas, C. Compoint, S. Laplante: Harmaline induced tremor. III. A combined simple units, horseradish peroxidase, and 2-deoxyglucose study of the olivocerebellar system in the rat 128
H. Collewijn, G. Holstege: Effects of neonatal and late unilateral enucleation on optokinetic responses and optic nerve projections in the rabbit 138
S. Nakagawa, S. Tanaka: Retinal projections to the pulvinar nucleus of the macaque monkey: a re-investigation using autoradiography 151
J.F. MacDonald, M.E. Morris: Lathyrus excitotoxin: mechanism of neuronal excitation by L-2-oxalylamino-3-amino- and L-3-oxalylamino-2-amino-propionic acid 158
B. Cohen, J.A. Büttner-Ennever: Projections from the superior colliculus to a region of the central mesencephalic reticular formation (cMRF) associated with horizontal saccadic eye movements 167
P. Landry, C.J. Wilson, S.T. Kitai: Morphological and electrophysiological characteristics of pyramidal tract neurons in the rat 177

Research Notes

B. Fischer, E. Rampsperger: Human express saccades: extremely short reaction times of goal directed eye movements 191
T.R.Vidyasagar, W. Heide: Geniculate orientation biases seen with moving sine wave gratings: implications for a model of simple cell afferent connectivity 196
V. Belin, F. Moos, Ph. Richard: Synchronization of oxytocin cells in hypothalamic paraventricular and supraoptic nuclei in suckled rats: direct proof with paired extracellular recordings 201
D. Pfaff, L. Rosello, P. Blackburn: Proteins synthesized in medial hypothalamus and transported to midbrain in estrogen-treated female rats 204
C. Dehay, J. Bullier, H. Kennedy: Transient projections from the fronto-parietal and temporal cortex to areas 17, 18 and 19 in the kitten 208

No. 2

A.J. Elberger, E.L. Smith: The critical period for corpus callosum section to affect cortical binocularity 213
R.J. Clarke, H. Ikeda: Luminance and darkness detectors in the olivary and posterior pretectal nuclei and their relationship to pupillary light reflex in the rat. I. Studies with steady luminance levels 224
J.M. Godfraind: Intrasomatic and intradendritic recordings of plateau potentials in slices of the dentate gyrus maintained in vitro 233
N.M. Gerrits, J. Voogd, W.S.C. Nas: Cerebellar and olivary projections of the external and rostral internal cuneate nuclei in the cat 239
J.P. Kessler, A. Jean: Identification of the medullary swallowing regions in the rat 256
K. Fukushima, K. Takahashi, J. Kudo, M. Kato: Interstitial-vestibular interaction in the control of head posture 264
R. Kang, D. Herman, M. MacGillis, P. Zarzecki: Convergence of sensory inputs in somatosensory cortex: interactions from separate afferent sources 271
A. Bejar, P. Roujansky, J. de Barry, G. Gombos: Different effect of methylazoxymethanol on mouse cerebellar development depending on the age of injection 279
J.P. Joseph, D. Boussaoud: Role of the cat substantia nigra pars reticulata in eye and head movements. I. Neural activity 286
D. Boussaoud, J.P. Joseph: Role of the cat substantia nigra pars reticulata in eye and head movements. II. Effects of local pharmacological injections 297
M. Molinari, D. Minciacchi, M. Bentivoglio, G. Macchi: Efferent fibers from the motor cortex terminate bilaterally in the thalamus of rats and cats 305
C. Yamamoto, H. Sato: Some properties of ionic channels activated by excitatory amino acids in hippocampal neurons 313
J.A.M. van Gisbergen, A.J. van Opstal, J.J.M. Schoenmakers: Experimental test of two models for the generation of oblique saccades 321
M.M. Bird: Establishment of synaptic connections between explants of embryonic neural tissue in culture: experimental ultrastructural studies 337
V. Dietz, J. Quintern, W. Berger, E. Schenck: Cerebral potentials and leg muscle e.m.g. responses associated with stance perturbation 348
K.-W. Gottschlich, J. Werner: Effects of medial midbrain lesions on thermoresponsive neurons in the thalamus of the rat 355

R. Boyle, U. Büttner, G. Markert: Vestibular nuclei activity and eye movements in the alert monkey during sinusoidal optokinetic stimulation 362
C. Batini, J. M. Billard: Release of cerebellar inhibition by climbing fiber deafferentation 370
P. B. Cipolloni, D. N. Pandya: Topography and trajectories of commissural fibers of the superior temporal region in the rhesus monkey 381
J. P. Aggleton: A description of intra-amygdaloid connections in old world monkeys 390

Research Notes

D. J. Saphier: Nucleus accumbens and preoptic area stimulation: tuberoinfundibular single unit responses, modulation of electrical activity and gonadotrophin secretion 400
W. J. Wadman, U. Heinemann, A. Konnerth, S. Neuhaus: Hippocampal slices of kindled rats reveal calcium involvement in epileptogenesis 404
H. Uchiyama, H. Ito, S. Nakamura: Electrophysiological evidence for tectal efferents to the neurons projecting to the retina in a teleost fish 408
J. D. Porter, B. L. Guthrie, D. L. Sparks: Selective retrograde transneuronal transport of wheat germ agglutinin-conjugated horseradish peroxidase in the oculomotor system 411
A. Grantyn, A. Berthoz: Burst activity of identified tecto-reticulo-spinal neurons in the alert cat 417
J. Hounsgaard, O. Kiehn: Ca^{++} dependent bistability induced by serotonin in spinal motoneurons 422
Announcements: 426

No. 3

J. H. Martin, C. Ghez: Task-related coding of stimulus and response in cat motor cortex 427
M. W. Oliver, J. J. Miller: Alterations of inhibitory processes in the dentate gyrus following kindling-induced epilepsy . . 443
Y. Istl-Lenz, D. Hydén, D. W. F. Schwarz: Response of the human vestibulo-ocular reflex following long-term 2 × magnified visual input 448
T. Savio, F. Tempia: On the Purkinje cell activity increase induced by suppression of inferior olive activity 456
D. W. G. Cox, J. Drower, H. S. Bachelard: Effects of metabolic inhibitors on evoked activity and the energy state of hippocampal slices superfused in vitro 464
C. R. French, A. J. Sefton, A. Mackay-Sim: The inhibitory role of the visually responsive region of the thalamic reticular nucleus in the rat 471
H. Forssberg: Ontogeny of human locomotor control. I. Infant stepping, supported locomotion and transition to independent locomotion 480
M. I. Boxer, D. Stanford: Projections to the posterior visual hyperstriatal region in the chick: an HRP study 494
E. Friauf, R. Baker: An intracellular HRP-study of cat tensor tympani motoneurons 499
E. Peterhans, P. O. Bishop, R. M. Camarda: Direction selectivity of simple cells in cat striate cortex to moving light bars. I. Relation to stationary flashing bar and moving edge responses 512
S. Yamane, R. Maske, P. O. Bishop: Direction selectivity of simple cells in cat striate cortex to moving light bars. II. Relation to moving dark bar responses 523
E. Senba, M. Tohyama: Origin and fine structure of substance P-containing nerve terminals in the facial nucleus of the rat: an immunohistochemical study 537
J. Bachevalier, R. C. Saunders, M. Mishkin: Visual recognition in monkeys: effects of transection of fornix 547
J. Bachevalier, J. K. Parkinson, M. Mishkin: Visual recognition in monkeys: effects of separate vs. combined transection of fornix and amygdalofugal pathways 554
W. Becker, A. F. Fuchs: Prediction in the oculomotor system: smooth pursuit during transient disappearance of a visual target 562
B. A. Svensson, J. Rastad, J. Westman, M. Wiberg: Somatotopic termination of spinal afferents to the feline lateral cervical nucleus 576
J. G. Bjaalie: Distribution in areas 18 and 19 of neurons projecting to the pontine nuclei: a quantitative study in the cat with retrograde transport of HRP-WGA 585
D. Herman, R. Kang, M. MacGillis, P. Zarzecki: Responses of cat motor cortex neurons to cortico-cortical and somatosensory inputs 598
B. Cohen, V. Matsuo, J. Fradin, T. Raphan: Horizontal saccades induced by stimulation of the central mesencephalic reticular formation 605

Research Notes

J. A. Vilensky, M. Baltes, M. C. Patrick: Effects of entopeduncular lesions upon treadmill locomotion in cats . 617
J. D. Kocsis: Aminopyridine-sensitivity of spinal cord white matter studied in vitro 620
L. Vécsei, I. Bollók, G. Telegdy, A. V. Schally: Effects of H-Phe-Ile-Tyr-His-Ser-Tyr-Lys-OH on different behavioral tests of rats 625
T. R. Vidyasagar, J. A. Sigüenza: Relationship between orientation tuning and spatial frequency in neurones of cat area 17 628
Announcements: 632, 633
Author Index: 634
